Greetings,

Here is your Week 6 Overview:

TLCL BOOK: [Chapter 10, Processes](#) - Covers these commands: ps, top, jobs, bg, fg, kill, killall, and shutdown.

TUESDAY: *Init System & Services* - systemd is more than just an init system. It is a "core OS". Learn how to manage services and targets.

THURSDAY: *Backups* - I cover using tar with compression flags as well as rsync and borgbackup.

THURSDAY: *Network Configuration* - Learn about Network Manager and its related tools.

HOMEWORK 3: *CLI Tour* - Here are some exercises for you to learn various CLI tools.

VIDEO: *Security features in systemd* - Lennart Poettering goes over a lot of the security related features that can be added in a service drop-in file.

QUIZ 2: Not posted yet but will be made available Thursday morning through Friday at midnight. I'll send out an additional communication on it.

Questions, suggestions, or comments?

TYL,

Scott Dowdle, x3931, BH262, sdowdle@montana.edu
